Calvin and David, your comment letter requested the revised permit application components by today, June 9. We are working to finalize gathering the requested materials and making the requested edits (including rearranging the documents to fit the templates as requested on our meeting) and intend to resubmit them to you next week. Thank you, Greg

Calvin and David, we've received and reviewed your initial comments, and very much appreciate the feedback. As we prepare our revisions and responses we would like to schedule a meeting with you to go over some of the technical items and cost analysis. Would you have availability at all during the week of May 23? I can generate a Doodle-Poll if you like for all who would attend. Thanks, Greg

Hi Thomas and Greg,

We have determined that your permit application is administratively complete and will begin our technical review of the application (see attached letter).

Best,
Calvin

Gregory,

Please submit the items to EPA via the GSDT. We couldn't upload a copy of the letter to the GSDT at the moment due to a glitch of the system but will do so when the issue is fixed.

The 'Kern County' application on the list is for another facility.

Best,
Calvin

Calvin and David, thank you – we will proceed to complete the items listed in your letter. When these items are complete would you like us to submit to you via email and/or the GSDT system?

We're also curious if the 'Kern County' application on this list is for San Joaquin Renewables, or another facility? Best,
Greg

Dear Mr. Paskach,

Please find the attached letter regarding EPA's administrative review of the SJR's UIC Class VI pre-construction permit application. Please let us know if you have any questions about this letter.

Sincerely,

Calvin Ho
